# **NEW HIGH QUALITY CHAINS WITH EXTENDED SERVICE LIFE**

## **Up To 300 lbs. Per Minute**

Feed fast with the Alliance Unloader's improved cutter and conveyor chain. It can consistently deliver haylage at up to 300 lbs. and more per minute.

## **3X Service Life**

In-use monitoring shows an extended chain life of two to three times the service life of earlier designs; up to four times the life of competitive models. Chain are backed by manufacturer warranty.

**Alliance® Unloader:** Innovative control panel monitors the cutter chain's advance into the forage material. Automatically cycles cleanout time. Use the motor load indicator to easily determine the best cycle settings for your forage.

**Marathon® Chain:** Aggressive chisel-tip cutter hooks have sharper leading edges to efficiently drive through compacted feed. Chain doesn't bog down. You get more feed, consistently.

# CADY, INC.

## YOUR #1 SOURCE FOR GENUINE HARVESTORE CHAINS, PARTS & UNLOADERS

CADY, INC., serving agriculture since 1929, is committed to your livestock operation's success. We have the in-depth training, the experienced personnel, and the manufacturer's recommended equipment to keep your farm up and running. We're confined entry space trained, OEM certified, and ready to answer your questions.

Use the self-contained **Hydra-Force** unit to spray oil directly onto the cutting and conveyor chain inside the structure. Regular oiling greatly extends chain and unloader service life. You can oil regardless of cutter arm position.

Sprockets are precision matched to chains for positive meshing and smoother operation.

**NOTE THE ENLARGED TEN TOOTH SPROCKET**

Fabricated using 431 stainless steel, the full round bushing design creates symmetrical distribution of stress for increased toughness and added service life.

All Harvestore parts and equipment are backed by Engineered Storage Products Company warranties. **If you need a new chain, a new unloader, or both, call us TOLLFREE: 877-999-CADY**
